The Center for Nanoscale Materials, a U.S. Department of Energy Office of Science user facility, provides expertise, instrumentation and infrastructure for interdisciplinary nanoscience and nanotechnology research.

Academic, industrial and international researchers can access the center through its user program for both nonproprietary and proprietary research. Access is provided at no cost to users for research that is in the public domain and intended for publication.

- **600+ users each year**
  - **50%** U.S. Academia
  - **30%** First-time users

- **50 average users per day**
- **38%** of users are students
- **100+ tools and capabilities**
- **40 scientific and user support staff**
- **USERS FROM**
  - **47 states**
  - **31 countries**

- **70% proposal allocation rate**
- **3 user proposal calls each year**
- **320+ publications each year**
- **12+ patents each year**
